REJECTION (37 C.F.R. 1.321(b))**

Commissioner for Patents
P.O. Box 1450

Dear Sir:

The below-named attorney of record, authorized to act on the behalf of the
assignees of record, hereby disclaims the terminal part of the entire patent granted on the above-
identified application which would extend beyond the expiration date of the full statutory term of

United States Patent No. 6,075,761 and of United States Patent No. 6,469,961, and hereby agrees that any patent so granted shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to U.S. Patents Nos. 6,075,761 and 6,469,961.

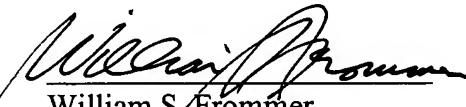

This agreement is to run with any patent granted on said application and to be binding upon the grantees, their successors or assigns. 100% of the title to the present application is in Sony Corporation, a corporation of Japan, Pioneer Electronic Corporation, a corporation of Japan, and Pioneer Display Products Corporation, a corporation of Japan, by virtue of an assignment from the inventors of the great-great-grandparent application, from which the present application is a division of a division of said 6,469,961, which is a division of a continuation of said 6,075,761. The assignment was recorded in the Patent and Trademark Office in connection with great-great grandparent patent 6,075,761 on October 14, 1997 at Reel, 8757 Frame. 0415. The name of Pioneer Video Corporation, one of the original joint assignees, was changed to Pioneer Display Products Corporation by virtue of the document recorded on September 8, 2003 at Reel 014463, Frame 0275.

The evidentiary documents accompanying or referred to in this Terminal Disclaimer have been reviewed by the undersigned and it is certified that to the best of the undersigned's knowledge and belief, title is in the assignee seeking to take action.

The below-named attorney of record does not disclaim any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term of United States Patent No. 6,075,761, in the event that: said patent 6,075,761 or patent 6,469,961 later expires for failure to pay a maintenance fee; is held unenforceable; is found invalid; is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. 1.321(a); has all claims canceled by a reexamination certificate; or is otherwise terminated prior to expiration of its statutory term, except for the separation of legal title stated above.

Please charge any insufficient fees or credit any overpayment associated with this Terminal Disclaimer to Deposit Account No. 50-0320.

Respectfully submitted,
FROMMER LAWRENCE & HAUG LLP
